

What others have said about the Baby Feet Scroll

Dear Life Workers,

I want to publicly thank Mark of High Calling Ministries for the Baby Feet Scroll I just received today! I am so impressed with the durability and professionalism of the scroll. I've shared it with a few of our volunteers and they are amazed! We just know that hearts will be softened when we unroll this scroll during our banquet in March. After the banquet is finished I plan on carrying it and presenting it at all speaking engagements throughout the year. Mark truly has a heart for our ministries and I encourage all centers to consider this feet scroll as another valuable tool that gives those that are not involved in the day to day runnings of our centers an eye opening experience that truly can turn their hearts to the seriousness of the abortion deception.

Thank you Mark!

Karen Pennell
Executive Director
Chester County Women's Services
Coatesville, PA

I just used my scroll for my first SOHL presentation last Sunday and it was VERY effective! I had two ladies that came with me to unfold the scroll and I asked the congregation to come up and help hold it up as it got to long for just the two of them to hold. It was great to have the whole church participate AND some commented how seeing the feet up close made it more real to them.

Thank you, Mark, for this awesome tool!

*Teri Brunner
Director, Crescent City, California*

Dear Mark,

Just wanted you to know and others as well, that we received the scroll and it looks awesome.

One of my volunteers took the scroll to one of the Catholic churches who supports us and rolled it out for several of the priests and some of the secretarial staff to view. They couldn't get over it. Thanks so much. Pray for us as we have five services this week-end to share and I want to bring the scroll and the script as it is powerful.

God Bless you and keep up the good work. Oh yes, the DVD and script that you sent will be presented on the same day at another church. Isn't God something?

Jane Beckett
Pregnancy Care Center

Hi Mark,

I just wanted to let you know that our banquet was a great success and the scroll only added to that success. People make great comments about having a visual to help understand the numbers of abortion in Texas.

Thanks again for your help! Could you please email me your address.

Thanks and God Bless,

*Tammy
CPC Grand Prairie, TX*

We used the baby scroll in 2004...it was extremely effective. I had our volunteers come forward and they held the scroll and supported the paper in the center. It seemed, unfortunately, that the scroll went on and on and on. It was so silent in the banquet hall you could hear a pin drop. One of those goose bump moments.

Greencastle, IN

Mark,

Thanks for the scroll. It arrived yesterday, and my staff and I were overwhelmed by the enormity of it... we were speechless. We prayed for God to give us opportunities to present, for pastors to be willing to give us time, for those who hear the message to have their hearts burdened for the ministry of our pregnancy center.

With tears we thanked Him for the babies whose feet are not represented on the scroll - some who we know the enemy nipped at their little heels! We praise God for allowing us to be useful in this ministry.

*Blessings ~
Shelley A. Lee
Executive Director
Fort Worth Pregnancy Center*

We used the scroll with footprints representing each baby aborted in the past year as an informational tool at our walk. Since we are in California, the scroll was quite long, so it made a dramatic visual impact as our walkers passed. It was a good "photo op", and it did make it onto one television newscast. We still have the scroll, and can use it again for other events, so I think it was a god investment.

Linda Davis, Bakersfield Pregnancy Center

We used the scroll at a Catholic Church yesterday morning to get people involved in our baby bottle fundraiser and I used the script you wrote which

was very powerful - thank you! At the end of the message I inserted the tsunami disaster in place of 911. We normally give out 400 baby bottles but we had such an outpouring of interest in support we gave out over 600 bottles. In-between masses I had to run to the Center for more bottles! The best part was that between the cash and donations that were handed to us in-between masses was \$250.00 which paid for the scroll!
God is so good!
Thanks for the equipping us with a great tool to help save babies and glorify our Lord!
The Lord bless you,
Sis Denise

Mark,

We had our annual banquet last Thursday evening and used the scroll at the start of speaking portion of the program. As we unrolled it and I talked about the number of footprints that represented those lost to abortion in our county alone in 2004 – 8,391 – there was an audible gasp from the audience. It made a huge impact. Thank you for your ministry and heart-calling. God opened people's hearts and purses that evening. God bless you.
