

Red and Yellow, Black and White, They Are Precious In His Sight...

We are all precious in His sight regardless of our color or ethnic background. That simple truth is not just a children's song, but one of the reasons why we exist. All children, born and pre-born are special creations of God, knit together in their mother's womb. Made by God and loved unconditionally.

Because we believe that every life is sacred and special, we too love everyone that comes to our center. We tell them about God's love for them and that He is an ever present help in times of trouble. For many, women come to us facing an unplanned pregnancy that has them feeling scared and alone. As we share God's love with them they begin to experience hope and then they are able to see from a new perspective. Through the other services we provide such as limited ultrasound, free pregnancy tests, material assistance and helpful referrals, they feel empowered to choose life.

Would you help us provide HOPE
to those feeling lost, scared and alone?
