

At the Hope Pregnancy Center we have found that when a woman faces an unplanned pregnancy, her relationship with the father plays a pivotal role in whether she decides to carry or abort. If she feels alone, abandoned or pressured not to carry, choosing life is difficult.

The key is to reach the father so that the mother might feel supported and empowered. Reaching the father makes all the difference. In order to touch his heart, we seek to share the truth about fetal development and the preciousness of life with him too. As we pray for every client that comes to the Center, we also pray that the Lord will touch the baby's father too. We pray that his heart will be turned to protect his child and support the mother of his baby. We believe that prayer is powerful and effective and we would like to ask you to join us so that more lives will be saved and changed. With your partnership, more moms and dads will choose LIFE!

The Hope Pregnancy Center offers assistance by providing free pregnancy tests, birthing and new-born care classes, limited ultrasound service, parenting education, material assistance, post-abortion peer counseling, Bible studies and much more.

Please prayerfully consider what God would have you do to help:

- Volunteer
- Be a Prayer Partner
- Donate Services
- Donate Funds
- Be a Committee member
- Donate Baby & Maternity Items
- Be a Church Liaison
