

Red and Yellow, Black and White, They Are Precious In His Sight...

With all the turmoil and civil unrest throughout our nation, everyone is asking the question, "What can bring us together?" Ethnic, racial and political divisions between people will not be remedied through reconciliation seminars, but through the power of Jesus. There is only one color that can transform lives and that color is red. Only through the shed blood of Jesus can forgiveness and hope be found.

That is the message that we share at the Hope Pregnancy Center. Everyone that comes through our door, whether they are red or yellow, black or white, we love them because they are precious in His sight. When people realize just how much God loves them and that they are not alone, they begin to experience hope. Hope that gives them the ability to say no to abortion and yes to life. Hope is why we exist. Because of hope, lives are saved and changed!
