

Within the news, videos have come out that clearly demonstrate that abortion is big business. It is an industry that profits from the procurement and sale of unborn body parts. As a society, and a country full of people that know the truth and care about life, this atrocity must stop!

Unfortunately, people have been deceived into thinking that that which is harvested within the womb is not real or worth defending. We could not disagree more!

All life must be seen as valuable and we must protect life both within and beyond the womb. If you believe that Life is sacred, and it is not a commodity, would you help us make a difference?

The HOPE Clinic for Women exists to help **SAVE** and **CHANGE** lives. We help those who are facing an unplanned pregnancy by sharing with them the truth about abortion, the alternatives and the power of God's love. Abortion is never the answer. It only compounds and increases problems. There is HOPE and there are Answers. **Would you help us offer HOPE?**

If you believe in life, you can help:

- ▶ Pray ▶ Volunteer
- ▶ Invest Financially
- ▶ Donate Baby items
